Relax layout in natural ambience

The COMBINATION SERIES explores a single design through a multiple-piece set.

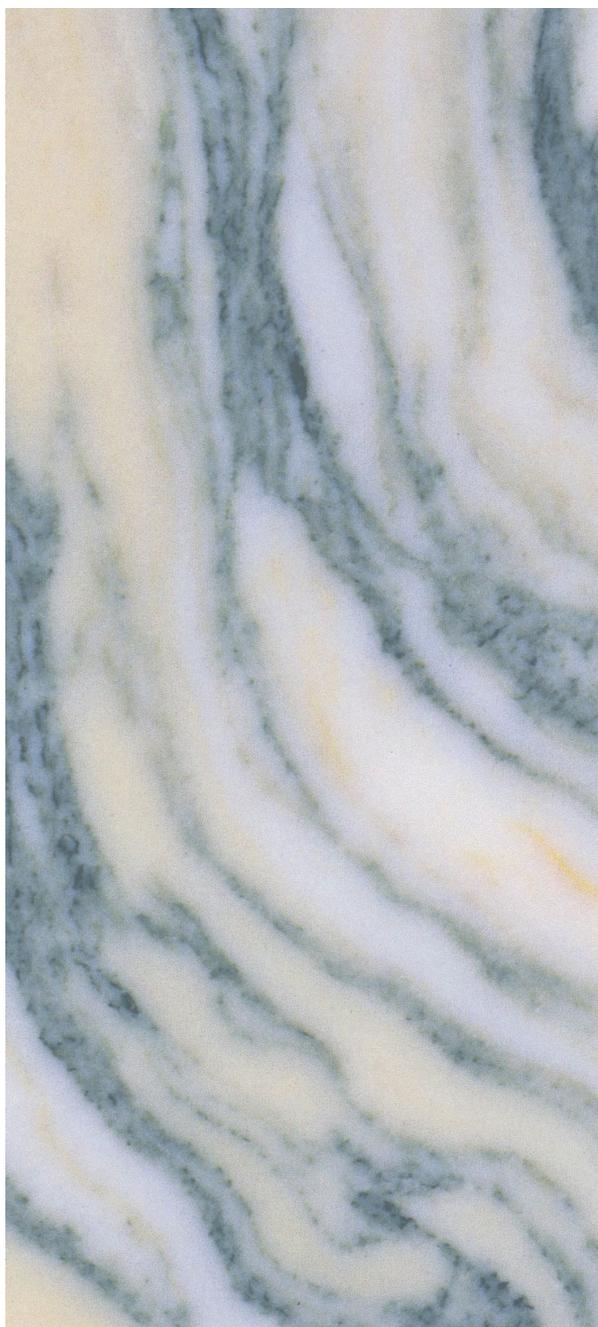

A variety of ideas can create a flexible and high-quality space.

Designs with patterns, Type A and Type B, of the COMBINATION SERIES allow to express the grandeur of natural materials in a bold composition as shown on the right.

* It is not possible to line up the two different patterns for design reasons.

CELSUS

Anti-fingerprint (AFP) HPL

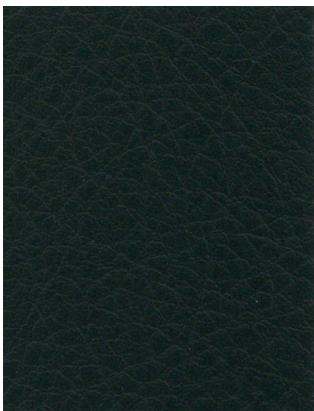

In 2008, we launched CELSUS, the world's first decorative panel featuring Anti-fingerprint (AFP) capabilities. (According to our research)

AICA's proprietary technology successfully keeps fingerprints from being visible on HPL and, in addition, allows for reduced HPL surface reflectance while creating vivid colors and patterns.

Touch and feel the difference!
